

Metal cutting - AMF Spanntechnik - K20 - MACH-ID 7029

Metal cutting - AMF Spanntechnik - K20

MACH-ID 7029

Make AMF Spanntechnik

Type K20

Year 2016

Dimensions

Length 490 mm

Width 490 mm

Height 40 mm

Weight 100 kg

Metal cutting - AMF Spanntechnik - K20 - MACH-ID 7029

- Holding force 55 kN
- Locking force 17 kN

Application:

The assembly element is used to clamp workpieces or fixtures with repetition accuracy directly onto the pneumatic clamping modules K10.3 and K20 using pull-studs.

This clamping system can be used to move workpieces to the required machining height in the machine for 5-sided machining, or for the safe and quick clamping of workpieces with ledges and different clamping heights on the machine table.

Thanks to the quadruple 90° indexing option, workpieces under large machining forces can be secured to prevent radial distortion.

Advantage:

Simple, quick and flexible clamping of complex workpiece contours on the machine table. Especially suitable for levelling workpieces or clamping fixtures at the necessary machine heights in the machine tool and for the reliable clamping of same.
