

CNC lathes with Y-Axis - MAZAK - Quick Turn NEXUS 450 MY - MACH-ID 7087

CNC lathes with Y-Axis - MAZAK - Quick Turn NEXUS 450 MY

MACH-ID 7087

Make MAZAK
Type Quick Turn NEXUS 450 MY
Year 2014
Control Mazatrol Matrix Nexus

Specifications

Max. turning Ø	840 mm
Y-Axis	200 mm
Z-Axis	3175 mm
Spindle bore	187 mm
Speedrange	2000 Rpm
X-Axis	340 mm
Spindle power	37 kW
ATC / revolver	12
Speed live tools	4000 Rpm

Dimensions

Length	8500 mm
Width	3400 mm
Height	3400 mm
Weight	21800 kg

CNC lathes with Y-Axis - MAZAK - Quick Turn NEXUS 450 MY - MACH-ID 7087

Ideal for the energy, heavy vehicle, and other large component industries, the Quick Turn Nexus 450-II MY and optional tailstock-mounted Long Vertical Mill, which features a 1,150mm boring bar with a special bolt-on angle head, can deliver deep-hole boring to depths of 1,039mm and perform inside diameter milling operations, such as internal keyways and internal drilling. The machine's rigid construction also provides high-precision machining over long periods of time.

The Quick Turn Nexus 450-II MY's headstock features a 457mm chuck, mounted on a 40 kW with 2,000rpm integrated spindle motor for heavy-duty metal removal. The spindle also serves as a C-axis, capable of being indexed at 0.0001° increments to accurately position parts for square facing and slotting cuts and precisely drilled holes. Additionally, the C-axis spindle is a full-function CNC controlled axis for milling.

The machine also uses a 12-position drum turret, and 7 kW with 4,000rpm rotary tool spindle for milling, drilling, and tapping operations, allowing many processes to be completed in a single machine cycle.

Package with 12 driven tools

Filtration & Coolant system

Tailstock mounted deep-hole drilling & milling

Boring bar with angle head

Steady rest
