3D printers - XYZ Printing - PartPro 300xT - MACH-ID 7386

The PartPro 300 XT is a professional FFF 3D printer for functional prototyping. With the PartPro 300 xT you get a high quality FFF 3D printer. This machine has all the features a professional FFF 3D printer should have. Firstly, it has a heated build chamber and a drying box for the filament. Secondly, it has a number of user conveniences such as built-in camera and remote control. To list only the most important elements first. With a construction volume of 195 x 270 x 300 mm with dual extrusion and 295 x 300 x 300 mm with single extrusion, it also has a respectable construction space. The positioning accuracy of the stepper motors is 0.0125mm in the XY axis. You can choose the Z-axis resolution from 50 to 700 µm.

The PartPro 300 xT from XYZprinting Professional enables you to produce functional prototypes from inexpensive and stable thermoplastics. This FFF 3D printer is designed for high usability and high performance.
