3D printers - 3D SYSTEMS - ProJet 1200 - MACH-ID 7436

The affordable ProJet® 1200 3D printer from 3D Systems puts the high precision and exceptionally fine feature detail of a professional 3D printer right on your desktop. Parts made on the ProJet 1200 are castable, so it is ideal for dental wax-ups, jewelry and other castings, and the durable, stiff parts are also great for plastic prototypes. Featuring fast print times, the ProJet 1200 is a workhorse when short cycle times are crucial. Convenient all-in-one material cartridges make it easy to replenish materials, and networkbased printing means your whole team can easily access the printer.
