

3D printers - XYZ Printing - PartPro 300 xT - MACH-ID 7438

3D printers - XYZ Printing - PartPro 300 xT

MACH-ID 7438

Make XYZ Printing
Type PartPro 300 xT
Year 2022

Specifications

X - Travel	295 mm
Y - Travel	300 mm
Z - Travel	300 mm
Resolution	400- 700 Micron
Accurate	12.5 Micron
Plastic printer	ABS / PLA / PETG / BVOH / Tough PLA

Dimensions

Length	540 mm
Width	610 mm
Height	733 mm
Weight	41 kg

3D printers - XYZ Printing - PartPro 300 xT - MACH-ID 7438

Hardened Steel Nozzle

High temperature hardened steel nozzle enables advanced material usage and quality results. Advanced auto leveling and calibration insures high precision accurate parts.

Heated Chamber Ensure Excellent Print Quality

The heated chamber keeps the printing temperature constant for excellent performance on complex geometries.

High Performance Dual Extrusion

The high performance dual extruder allows for use of advanced materials like PETG, ABS, PLA, Tough PLA and of course water-soluble support material.

Double Capacity Supports Large-area Continuous Printing without Interruption

Two 3kg rolls capacity extends ease of use and change over intervals. Y tube connector can replenish the filament immediately if ran out of the filament from one side.

Fused Filament Fabrication (FFF)

It is a 3D printing process that uses a continuous filament of a thermoplastic material.

Find the Right Material for the Job

XYZprinting offers a versatile range of materials to ensure that you'll always find the right material for making external components or model parts.

XYZprint AM^{FFF}

XYZprint AM^{FFF} is a printing software application designed for XYZprinting's FDM 3D printers. It lets you preview your prints in full color and customize a range of print settings, before sending your models to print.

XYZengraver

XYZengraver is an engraving software tool designed for our laser engraver module. Expand your creativity by engraving on paper, leather, wood, and plastic (PP, ABS, PE).
