

Tube bending machines - Wortelboer - PBM 4 - MACH-ID 7441

Tube bending machines - Wortelboer - PBM 4

MACH-ID 7441

Make Wortelboer
Type PBM 4
Year 2006

Dimensions

Length	1100 mm
Width	900 mm
Height	1600 mm
Weight	900 kg

Tube bending machines - Wortelboer - PBM 4 - MACH-ID 7441

- Clamping size: 20 - 116 mm
- Clamping prism
- Wall thickness 13 mm in one pass
- Feed travel 100 mm
- Turning speed 100 - 250 Rpm

The pipe is clamped with a self-centering prism clamp (for which no spare parts are needed). The prism clamp can handle the entire clamping range of the machine. The specially developed chisel set allows the machining of all pipe sizes within the range of the machine. Without having to adjust chisels again and again.

Thanks to the stability of the machines, every finishing operation is the same. This promotes the welding result, which is of the greatest importance when welding with, for example, a welding robot.
