

Tube bending machines - Wortelboer - PBM-6 SCR - MACH-ID 7442

Tube bending machines - Wortelboer - PBM-6 SCR

MACH-ID 7442

Make Wortelboer
Type PBM-6 SCR
Year 2002

Dimensions

Length 49.213 inch

Width 38.583 inch

Height 64.961 inch

Weight 3198.1 lbs

Tube bending machines - Wortelboer - PBM-6 SCR - MACH-ID 7442

- Clamping size: 20 - 170 mm
- Clamping prism
- Wall thickness 25 mm in one pass
- Feed travel 100 mm
- Turning speed 40 - 100 Rpm

The pipe is clamped with a self-centering prism clamp (for which no spare parts are needed). The prism clamp can handle the entire clamping range of the machine. The specially developed chisel set allows the machining of all pipe sizes within the range of the machine. Without having to adjust chisels again and again.

Thanks to the stability of the machines, every finishing operation is the same. This promotes the welding result, which is of the greatest importance when welding with, for example, a welding robot.
