

Welding machines - PEMA - PBW 5000/2 - MACH-ID 8490

Welding machines - PEMA - PBW 5000/2

MACH-ID 8490

Make PEMA
Type PBW 5000/2
Year 2015

Dimensions

Length	50000 mm
Width	8700 mm
Height	5400 mm
Weight	103000 kg

Welding machines - PEMA - PBW 5000/2 - MACH-ID 8490

Pemamek PEMA PBW50002 Plate Butt Welding Line

- Butt welding line for steel plate, 1000 to 4700mm in width and 20 to 120mm in height/thickness, joins sections of plate prior to rolling into can shapes used for the construction of large scale off shore, 62m 800T, jacket foundations and towers for wind turbine towers.
- The welding equipment is situated on a carriage that traverses the work piece on an overhead beam. The welder comprises of a laser guided tandem head submerged arc welder with electric induction pre heater.
- The steel plate sections are positioned and held using hydraulic pins and a set of electronic magnets
- The PEMA RC5200 conveyor system is designed to move and push plates through the welder. This machine is supplied with plate from the MIBA seam milling machine listing number 780670.
- Built in 2015 and operated from 2015 to 2019
- Product holding magnets are integral to the line and included.
- Operation and Maintenance Manuals available
- Overall dimensions of line = Length 57580mm, Width 8625mm, Height 5365mm
