CNC Bed-type milling Machines - ANAYAK - HVM 11000 DUO - MACH-ID 8622

Duplex milling are two machines located one opposite the other which can work separately or as single machine, workpiece can be machined with 2 simultaneous spindles.

- Production increase of up to 50% in relation to conventional solutions, i.e. individual milling machines
- Improvements in part precision, by managing to do the machining of the part in one single setup, in most of the cases
- One sole operator can control the DUPLEX milling machines
- Reduced space and investment requirement comparing with two single machines
- Fast investment amortisation due to the high productivity
- Duplex solution admits different configurations: single working area, pendulum working areas

For machining excavator arms / boom like, CAT, Caterpillar, Komatsu, Hitachi, Hyundai, Doosan, Case, Bobcat, JCB, Kobelco, Liebherr, Kubota, Takeuchi, Volvo
