Other sheet metal working - STOPA - UNPACKING TABLE - MACH-ID 8932

STOPA understands what storage means. For this reason, the perfect UNPACKING TABLE has been developed to speed up the process of unpacking and depalletizing sheet metal packages. Increase your productivity by more easily separating sheet metal stacks from their carrier pallets. The unpacking table features a movable stamp frame on which the sheet metal package is placed at an ergonomic height. The packaging can now be easily removed, and the wooden pallets fall downwards. With the help of a forklift or crane, the sheet metal package can then be directly transported to the INCOMING GOODS STATION. Experience how easy unpacking can be. Ideal for any sheet format!

BENEFITS AT A GLANCE

- † Facilitates the entire unpacking process.
- † Easy separation of sheet metal packages and wooden pallets.
- † Sturdy table with movable stamp frame.
- † Optimal height for ergonomic work.
- † Prevents damage to sheet metals.
- † Available for all common sheet formats.
- † Optional also in galvanized version –Ideal for outdoor use.
