

Profile bending machines - Tauring - DELTA 50 CNC - MACH-ID 8954

Profile bending machines - Tauring - DELTA 50 CNC

MACH-ID 8954

Make Tauring
Type DELTA 50 CNC
Year 1999
Control TAURING CNC-S

Specifications

Shaft Ø	115 mm
Number of rolls	3
Horizontal and vertical	H+V
Control	TAURING CNC-S

Dimensions

Length	1400 mm
Width	1400 mm
Height	1400 mm
Weight	780 kg

Profile bending machines - Tauring - DELTA 50 CNC - MACH-ID 8954

Shaft length 115 mm

Max roll diameter 175 mm

CNC-C means Computerised Compact Numerical Control. Thanks to the small size offered by the most modern technology and a competitive price it has been possible to obtain a powerful, reliable and suitable product.

Tauring bending machines can be equipped with this device, which gives the possibility to realise any shape of regular and irregular geometrical bending.

The machine equipped with the CNC-C device executes automatically and in only one pass up to 30 program steps (in the same bar 30 bends of different radius), by simply setting the radius and development in mm of each segment composing the shape.
