4 roll plate benders - Davi Promau - MCB 3041 V - MACH-ID 9014

- 4 roll construction more easy clamping workpiece
- 4 skates to support the tank / shell during bending proces
- Fully hydraulic machine with digital read out system
- Vertical systems allow a reduction of the working space
- Fewer qualified people can be employed
- Production times are getting shorter
- Products have a high level of quality and customization
- Contamination-free tanks can be produced, especially for the food industry
- Easy and quick coil replacement
- It is possible to carry out polishing of the material at lower costs
- Avoids the use of plastic film for product protection
- It is possible to couple different thicknesses of shells without the use of the inner ring
- Tanks can be produced from 1.5 to 20m diameter, expandable up to 30 m
- The material can have a thickness up to 35 mm
