Heat treatment - SciTeex - VENUS - MACH-ID 9397

- (dust-free operation, paint overspray collection system, stable spraying temperature, elevated drying temperature) Control box including advanced safety functions and operator-friendly software
- (weather condition independent operation, elevated temperature in the drying phase)
- (daylight-grade illumination, fire safety, efficient ventilation rendering operator's individual respiratory protection equipment redundant)
- Low operation cost : (reduced operating costs owing recirculation of warm air in the drying phase)
- (efficient dust collection, low solvent vapor concentration, low air pollutant emission)
- Limited operating area requirement : (minimized production area)
