4 Walzen Rundbiegemaschinen - HAEUSLER - VRM-HY 3600/300 - MACH-ID 9870

WORLDWIDE UNIQUE OPPORTUNITY – ONE OF THE LARGEST AND MOST POWERFUL 4-ROLL PLATE BENDING MACHINES EVER BUILT BY HAEUSLER 3600 x 300 mm

Mach4Metal is proud to announce the acquisition of one of the largest and most powerful 4-roll plate bending machines ever manufactured by HAEUSLER, Switzerland.

Only two identical machines of this exceptional size and capacity were ever built. The second machine is installed at Dillinger Hütte in Germany.

With a total weight exceeding 800 tonnes, an extraordinary pressing force of more than 7,000 tonnes from the lower roll against the upper roll, and a plate rolling capacity of up to 300 mm thickness, this machine represents the highest level of heavy-duty plate forming technology.

A RARE OPPORTUNITY FOR MANUFACTURERS OPERATING IN THE WORLD'S MOST DEMANDING INDUSTRIES.

This extraordinary machine is particularly suitable for manufacturers specialising in:

- Nuclear energy – Small Modular Reactors (SMR) and Advanced Modular Reactors (AMR)
- Nuclear reactor pressure vessel components
- Heavy-wall pressure vessels and high-pressure systems
- Steam drums, industrial boilers and power generation equipment
- Large-diameter cylindrical shells, cans and vessels
- Oil & gas processing equipment
- Onshore and offshore heavy fabrication
- Heavy industrial components requiring extreme plate thickness and forming forces

WHY INVEST IN THIS EXCEPTIONAL HAEUSLER MACHINE?

Machines of this size and capacity are extremely rare on the worldwide market. Engineering and manufacturing a comparable new machine would require a substantial investment and a significant delivery period.

Mach4Metal offers the opportunity to acquire this remarkable machine with immediate availability.

For companies planning to expand their production capabilities in nuclear energy, power generation, offshore construction or heavy pressure vessel manufacturing, this could be a once-in-a-generation investment opportunity.

AVAILABLE IMMEDIATELY – COMPLETE WORLDWIDE TURNKEY SOLUTIONS

Mach4Metal can provide complete international project support, including professional dismantling, heavy-lift handling, worldwide transportation and shipping, installation, reassembly, commissioning, operator training and technical support.

ARE YOU LOOKING FOR EXTREME ROLLING CAPACITY? THIS IS YOUR OPPORTUNITY.

If your company is active in SMR/AMR technology, nuclear power generation, pressure vessel manufacturing, heavy boiler production or offshore fabrication, we invite you to contact Mach4Metal.

**ONE OF ONLY TWO IDENTICAL MACHINES EVER BUILT.
EXCEPTIONAL CAPACITY. IMMEDIATE AVAILABILITY.
WORLDWIDE DELIVERY.**
