Guillotiner - DMF - 4E110D - MACH-ID 9889

Guillotiner - DMF - 4E110D

MACH-ID 9889

Fabrikat DMF
Type 4E110D
YOP 1993

Specifikationer

Maksimal pladetykkelse	4/6 mm
Maks. skærelængde	1100 mm
Slag over fuld længde	100 mm
Slag i kort format 1000 længde	90
Skære vinkel	1,30 °
Længde baggauge	500 mm
Antal nedholdere	6
Tilgangshastighed	120 mm/sec.
Arbejdshastighed	100 mm/min.

Dimensioner

Længde	1500 mm
Bredde	1500 mm
Højde	1500 mm
Vægt	1200 kg

Bemærk venligst: Oplysningerne på denne side er indhentet efter bedste evne og overbevisning, og fra producenterne, hvor det er muligt. Det er givet i god tro, men dets nøjagtighed kan ikke garanteres. Det vil derfor ikke udgøre en repræsentation eller udgøre kontraktlige vilkår. Vi råder dig til at tjekke alle vitale detaljer!

DMF 4G110 – Mechanical Guillotine Shear 1100 x 4 mm

The DMF 4G110 is a compact and robust mechanical guillotine shear designed for accurate straight cutting of sheet metal. The machine is suitable for small and medium-sized fabrication workshops, maintenance departments and industrial production facilities.

Technical specifications

- Manufacturer: DMF
- Model: 4G110
- Machine type: Mechanical guillotine shear
- Cutting length: 1,100 mm
- Cutting capacity: 4 mm mild steel
- Cutting system: Mechanical
- Application: Straight cutting of sheet metal

Who needs this machine?

- Sheet metal fabrication companies: Cutting steel sheets into smaller components and blanks.
- Machine manufacturers: Producing covers, brackets, panels and machine components.
- Steel construction companies: Preparing steel plates for welding and fabrication.
- Maintenance workshops: Manufacturing replacement parts and performing repair work.
- HVAC manufacturers: Cutting sheet metal for ventilation systems and ductwork.
- Agricultural machinery manufacturers: Producing steel components for agricultural equipment.
- Technical schools: Training students in conventional sheet metal processing.

Typical applications

- Cutting mild steel sheets up to 4 mm thickness.
- Producing rectangular and square sheet metal blanks.
- Preparing material for bending, punching and welding.
- Small-batch production and maintenance work.
- Cutting aluminium and other suitable sheet metals within machine capacity.

Main advantages

The DMF 4G110 offers a simple, reliable and cost-effective solution for straight sheet metal cutting. Its compact dimensions make it particularly suitable for workshops with limited floor space. The mechanical cutting system allows fast operation and relatively straightforward maintenance.

Ideal for: Small and medium-sized metalworking companies looking for an affordable, durable and easy-to-operate sheet metal cutting machine.

- Mechanical guillotine
- Hand backgauge
